- Frontend Web Development – Relevel by Unacademy** **2023**
- Gained practical skills in HTML, CSS, JavaScript, and modern front-end frameworks with real-world project implementation and performance assessments.

PROJECT

Movie Booking Website – Front-End Development Project

- Designed and developed a responsive movie booking web interface using React.js, integrating Bootstrap and Material UI for an intuitive user experience. Focused on seamless navigation, layout responsiveness, and UI consistency across devices.

Hotel Booking Website – Full Stack Web Development Project

- Developed a dynamic hotel booking platform using the MERN stack (MongoDB, Express.js, React.js, Node.js), implementing key features for user registration, booking, and data handling. Enhanced UI/UX with Bootstrap and custom CSS to ensure responsive and visually appealing design across devices.
